The RCMP report for March 2016 was presented by Cpl. Brian Villers. RCMP responded to 118 calls for service, 24 of which were in the Village of Chipman. Of note, a male was arrested on March 26<sup>th</sup> for assault and released on conditions and a court date. Four (4) seatbelt tickets were issued. Cpl. Villers told Council that they have made changes to their scheduling and will now have 4 members on duty at all times.

Suggestions and plans for any special celebrations should be considered as any funding must be requested a year in advance. Regarding the closure of Scotiabank Chipman Branch on Oct 6<sup>th</sup>, Mayor Farris advised Council that he had made calls to major banks and credit unions in hopes that one would consider locating in Chipman to replace Scotiabank. No positive response was received. The credit unions in this area met with their boards but did not want to expand into the rural areas. He also met with Darcy Kelly, Manager of Chipman branch and had spoken with Scott Allen a couple of times. They told him that a Scotiabank Cash Only machine was being put in to Robert's Independent location in May. This is a cash only machine, no deposits or transferring between accounts can be done.

The future of the bank building was discussed with Mr. Allen. That will be looked after by the realty department of Scotiabank. The approx. cost of taking ownership and maintaining that building as vacant is being reviewed by staff and will be considered should Scotiabank offer to transfer ownership to the Village.

In 2015, a boat stayed connected to the power source of the pump house for an extended period of time, leaving an extension cord on the walkway of the dock. Councillor Faith Kennedy commented that security would be a draw for boat owners to leave their boats there for a fee. A student could be hired for security watch at night. Councillor Carol Boyd commented that a summer student would too young for that type of work.

Mayor Farris stated that five of nine pump stations have been retrofitted for removal of floatable materials.
